1. SITE IDENTIFICATION

[Back to top](#)

1.1 Type B	1.2 Site code BG0000402
----------------------	-----------------------------------

1.3 Site name

Bakadzhitsite

1.4 First Compilation date	1.5 Update date
2005-09	2018-12

1.6 Respondent:

Name/Organisation:	Ministry of Environment and Water, "National Nature Protection Service" Directorate
Address:	Sofia Kn. Maria Luiza Blvd. 22 1000 Sofia
Email:	natura2000@moew.government.bg

1.7 Site indication and designation / classification dates

Date site classified as SPA:	0000-00
National legal reference of SPA designation	No data
Date site proposed as SCI:	2007-03
Date site confirmed as SCI:	2008-12

Date site designated as SAC:

No data

National legal reference of SAC designation:

No data

Explanation(s):

Adopted by Council of Ministers Decision No. 122/02.03.2007 (promulgated SG 21/2007).

2. SITE LOCATION

[Back to top](#)

2.1 Site-centre location [decimal degrees]:

Longitude

26.7197

Latitude

42.4382

2.2 Area [ha]:

4504.87

2.3 Marine area [%]

0.0

2.4 Sitelength [km]:

0.0

2.5 Administrative region code and name

NUTS level 2 code

Region Name

BG34

Югоизточен / Yugoiztochen

2.6 Biogeographical Region(s)

Continental (100.0
%)

3. ECOLOGICAL INFORMATION

[Back to top](#)

3.1 Habitat types present on the site and assessment for them

Annex I Habitat types						Site assessment			
Code	PF	NP	Cover [ha]	Cave [number]	Data quality	A B C D	A B C		
						Representativity	Relative Surface	Conservation	Global
62A0B			177.94		M	C	C	C	C
8230B			23.92		M	C	C	C	C
91AAB			660.55		M	B	C	B	B
91M0B			1334.17		M	C	C	C	C
91Z0B			19.95657		G	C	C	C	C

PF: for the habitat types that can have a non-priority as well as a priority form (6210, 7130, 9430) enter "X" in the column PF to indicate the priority form.

NP: in case that a habitat type no longer exists in the site enter: x (optional)

Cover: decimal values can be entered

Caves: for habitat types 8310, 8330 (caves) enter the number of caves if estimated surface is not available.

Data quality: G = 'Good' (e.g. based on surveys); M = 'Moderate' (e.g. based on partial data with some extrapolation); P = 'Poor' (e.g. rough estimation)

					Min	Max		C R V P	IV	V	A	B	C	D
R		Ablepharus kitaibelii						C					X	
A		Bufo viridis						C					X	
R		Coluber caspius						C			X			
M		Crocidura leucodon						C					X	
M		Crocidura suaveolens						C					X	
M		Dryomys nitedula						C					X	
R		Elaphe longissima						P					X	
M		Erinaceus concolor						C			X			
M		Felis silvestris						C			X			
P		Fritillaria orientalis			101	200								X
P		Heptaptera triquetra						R			X			
A		Hyla arborea						C					X	
R		Lacerta trilineata						C					X	
R		Lacerta viridis						C					X	
M		Micromys minutus						P					X	
M		Muscardinus avellanarius						P			X			
M		Mustela nivalis						P			X			
M		Nannospalax leucodon						P					X	
R		Natrix tessellata						C					X	
M		Neomys anomalus						P					X	
R		Podarcis muralis						C					X	
R		Podarcis taurica						C					X	
I		Polydesmus herzogowinensis												X
A		Rana dalmatina						C					X	
M		Sorex minutus						P					X	
M		Suncus etruscus						P					X	
I		Trypocopriss fulgidus						P						X
P		Tulipa aureolina						R			X			
R		Vipera ammodytes						C					X	

Group: A = Amphibians, B = Birds, F = Fish, Fu = Fungi, I = Invertebrates, L = Lichens, M = Mammals, P = Plants, R = Reptiles

CODE: for Birds, Annex IV and V species the code as provided in the reference portal should be used in addition to the scientific name

S: in case that the data on species are sensitive and therefore have to be blocked for any public access enter: yes

NP: in case that a species is no longer present in the site enter: x (optional)

Unit: i = individuals, p = pairs or other units according to the standard list of population units and codes in accordance with Article 12 and 17 reporting, (see [reference portal](#))

Cat.: Abundance categories: C = common, R = rare, V = very rare, P = present

Motivation categories: **IV, V:** Annex Species (Habitats Directive), **A:** National Red List data; **B:** Endemics; **C:** International Conventions; **D:** other reasons

4. SITE DESCRIPTION

[Back to top](#)

4.1 General site character

Habitat class	% Cover
N17	3.0
N08	23.0
N16	55.0
N09	12.0
N15	7.0
Total Habitat Cover	100

Other Site Characteristics

Important ecocorridor. The site represents a series of hills in the Tundja hilly region, on the South-East of Jambol. The height is 12 km long and 5-10 km wide. Most common are vertisols and maroon forest soils. The hills are covered by pastures and arable land. There are forests of Common Oak, Downy Oak, Eastern Hornbeam and Turkey Oak. The site itself is covered by offshoot forests of oak, lime, hornbeam and acacia. There are pastures with bushes and little rocks in the outskirts. There are also several micro-reservoirs, and the one near the village of Lyulyak has significant variety of birds. A great part of the arable land indicated in the Land cover maps are turned into deserted land, suitable for some bird species. The heights are rich in game and other fauna, the tortoises are numerous.

4.2 Quality and importance

The quality of the habitats in certain regions of the site is comparatively good. There are some parts that are quite heavily urbanized, other where logging take place (near the abandoned Bakadzhik Mine). There is also an old abandoned mine where the landscape is significantly changed by the mining activities. In the same time areas such as Voinishki Bakadzhik remain comparatively less influenced by the agriculture and other human activities and worth protecting. The villages situated in or near the site are populated mainly by elderly people. There are a couple of hotels and summer houses built within the boundaries of the site. The site is surrounded by highly urbanized areas and at the same time conserves great biodiversity. Being such it is important to link it with other sites with bio-corridors in order to avoid the isolation of the species populations. This is especially true for the existing populations of *T. graeca* and *T. hermanni*. In table "Ecological Information - Other Important species", the species justified by 'A-National' are not necessarily included in the National Red Data Book, because its last edition is too old (1985), not up-dated and has no legislative value. The species indicated by 'A-National' are the protected flora and fauna species, included in the Bulgarian Biodiversity Act, and therefore this motivation is given highest priority. The *Elaphe quadrolineata* species found within the site is subspecies *Elaphe quadrolineata sauromates*.

4.3 Threats, pressures and activities with impacts on the site

The most important impacts and activities with high effect on the site

Negative Impacts			
Rank	Threats and pressures [code]	Pollution (optional) [code]	inside/outside [i o b]
M	E04.01		i
H	B02.04		i

Positive Impacts			
Rank	Activities, management [code]	Pollution (optional) [code]	inside/outside [i o b]
M	B		i
M	A05.01		i

M	B03		i
H	B02.02		i
H	E03.01		i
M	C01.04		i
H	G02.08		i
M	A03		i
M	B		i
M	H		i
H	E01.01		i
H	A01		i
H	F03.02.09		i
M	A05.01		i
H	B01.02		i
M	A04		i
M	F03.01		i
H	F03.02		i
H	G01.03		i
H	G04.01		i

Rank: H = high, M = medium, L = low

Pollution: N = Nitrogen input, P = Phosphor/Phosphate input, A = Acid input/acidification,

T = toxic inorganic chemicals, O = toxic organic chemicals, X = Mixed pollutions

i = inside, o = outside, b = both

4.4 Ownership (optional)

4.5 Documentation

Initial proposal and description of the site made by D. Dimova, Sofia, 17 Antim 1 Str, dobi55@abv.bg; Pavel Stoev - National Museum of Natural History, 1 Tsar Osvoboditel Blvd, Sofia, stoev@nmnh.bas.bg; Ilian Stoev - Green Balkans, Plovdiv, +359 32 62 69 77, office@greenbalkans.org. 5. SITE PROTECTION STATUS (optional)

[Back to top](#)

5.1 Designation types at national and regional level:

Code	Cover [%]	Code	Cover [%]	Code	Cover [%]
BG00	100.0				

5.2 Relation of the described site with other sites:

5.3 Site designation (optional)

6. SITE MANAGEMENT

[Back to top](#)

6.1 Body(ies) responsible for the site management:

Organisation:	Regional Inspectorate of Environment and Water: Stara Zagora
Address:	
Email:	

6.2 Management Plan(s):

An actual management plan does exist:

<input type="checkbox"/>	Yes
<input type="checkbox"/>	No, but in preparation
<input checked="" type="checkbox"/>	No

6.3 Conservation measures (optional)

State Game-Breeding Station Tundja

7. MAP OF THE SITES
